

How to load our Airport waypoints onto your GPS

Step 1. Download Garmin BaseCamp here

http://download.garmin.com/software/BaseCamp_452.exe

Step 2. Follow online instructions to download

Step 3. Once installed, download our GPX file

<https://www.dropbox.com/s/msn8n134wfh12ea/All%20Airports.gpx?dl=0>

Step 4. Open Garmin Basecamp and click on “Import” and Import the file you downloaded in the previous step.

Step 5. Plug in your GPS and click on “Device”, then “Send to Device”. Select your GPS and continue with the transfer. The airports will now be under your user waypoints.
